

REMARKS

This Amendment is submitted in response to the Office Action mailed on September 23, 2005, and is submitted by the extension date of November 23, 2005 with the payment of proper fees for the extension of time in the amount of \$60.

The applicant has noted the Examiner's comments that certain new claims contain bracketed material. The applicant was not aware that the bracketing of words is a problem. The new claims are presented in clean form. The applicant is trying to prosecute the patent on his own as the previous attorney has excused himself due to family health and retirement reasons and moved away from a proximate location.

The applicant has labeled claims 28-47 as withdrawn for enabling the prosecution of the remaining claims on their merits. However, the applicant respectfully requests that the Claims 28-47 be rejoined for prosecution on their merits since time is of the essence and since the applicant did not benefit from timely service from the attorney related to these claims and claim amendments. The subject matter of the claims is part of the original specification and original drawings.

The applicant respectfully requests a reconsideration of the new claims and the withdrawn claims on their merits.

Respectfully submitted,

 K. Rao
